Charles River Laboratories International, Inc. ("Charles River" or the "Company") will be presenting at the J.P. Morgan 36th Annual Healthcare Conference in San Francisco, California, on Tuesday, January 9th, at 11:30 a.m. PT (2:30 p.m. ET). Management of the Registrant intends to present an overview of the Registrant's strategic focus, business developments and recent trends. Included in this overview will be statements addressing the impact on the Company of the new United States tax reform legislation. In particular, in advance of the conference presentation, the Registrant has posted a slide presentation on the Investor Relations section of the Registrant's website at <http://ir.criver.com> which includes the following statements as to the Company's preliminary assessment of the effect of the new tax legislation on the Company:

2017: Finalizing the impact of the discrete tax items that will be recorded in 4Q17

- o Toll tax on foreign earnings

- Recorded in 4Q17, but payable to IRS over 8 years beginning in 2018

- o Non-cash adjustments related to the revaluation of U.S. deferred tax assets/liabilities

2018: Expected to be effectively neutral to GAAP and non-GAAP EPS

- o Benefit from lower U.S. corporate tax rate will be offset by several items, including changes to the 162(m) officers' compensation limitations

2019 and beyond: Expected to be a modest benefit to GAAP and non-GAAP EPS due primarily to the lower U.S. corporate tax rate

The slide presentation includes "safe harbor" language pursuant to the Private Securities Litigation Reform Act of 1995, as amended, indicating that certain statements contained in the slide presentation are "forward-looking" rather than historic. The slide presentation also states that these and other risks relating to Charles River are set forth in the documents filed by Charles River with the Securities and Exchange Commission. With the exception of the specific statements from the slide presentation copied above, the slide presentation is not incorporated herein by reference.
